

AMDEX At-a-Glance

AMDEX Corporation is a small woman-owned business with more than 30 years of experience helping Government customers accomplish their project, program, and portfolio objectives and achieve the greatest return on investment (ROI).

In the past four years, AMDEX has managed >\$55M in prime contracts providing project, program, and portfolio management services for Federal Government customers at the U.S. Departments of Commerce, Health and Human Services, and Transportation with exceptional results. AMDEX's Program Management Center of Excellence (PMO CoE) promotes thought leadership and best practices. Our managers average 10 years of experience, hold relevant industry certifications and are Amazon Web Services (AWS) Cloud certified.

Case Studies

Census Bureau Project: AMDEX helps the Census Decennial Program Management Office manage 35 programs and >100 projects daily by providing acquisition, communications, IT project, quality, and resource management support. AMDEX has helped Census programs meet their milestone deadlines and successfully conduct annual integration tests. We have developed multiple reporting and status visualization tools and our CPARS are 100% Exceptional.

National Institutes of Health, National Heart Lung and Blood Institute (NHLBI) Project: AMDEX developed standard schedule, risk, and dependency management processes and helped

AMDEX helps Government manage some of its most complex and transformative projects like the 2020 Census valued at >\$15 billion.

NHLBI automate those processes. AMDEX also organized NHLBI's first Continuous Integration/Continuous Development Pilot program, which was converted to a successful project.

Centers for Disease Control and Prevention Project: AMDEX provides governance board support, capital planning, investment control, compliance, and cybersecurity services. We have helped more than 40 IT system owners meet their stage gate milestones, mitigate project risks, and acquire authority to operate (ATO) and troubleshoot security issues.
